

Model: [30664.120AC](#) LPS Monitor

Specs

Max Flow:	0 gpm
Min Pressure:	0 psi
Max Pressure:	0 psi
Inlet Port Size:	0
Discharge Port Size:	0
Type of Accessory:	LPS Monitors
Material:	N/A

Description:

Cat Pumps LPS monitor is designed to sense water leakage past the low pressure seals and alert maintenance personnel that the pump seals need replacing. If not serviced in a timely manner, the water can continue to leak past the low pressure seals and contaminate the crankcase oil, causing oxidation and increasing the oil viscosity. The LPS Monitor is designed to alert maintenance personnel of this condition before the pump drive components are at risk. This indicator light version works with pump models: 650, 651, 660, 661, 661C, 661D, 681, 681K, 1050, 1051, 1051C, 1051D, 1057, 1530, 1531, 1540, 1540E, 1541, 1560, 1810, 1810K, 1851, 1851K, 1861, 1861K

Accessory to be used with these Pumps:
