

Model: [7542](#)
Multiple Gun Pressure Unloader

Specs

Max Flow:	21 gpm
Min Pressure:	800 psi
Max Pressure:	4000 psi
Inlet Port Size:	1/2"NPT(F)
Discharge Port Size:	1/2"NPT(F)
Type of Accessory:	Unloader
Material:	Brass (BB)

Description:

This Pressure Sensitive Regulating Unloader is designed for single or multiple pump, weep or multi-nozzle systems. This unloader maintains set system pressure and goes into by-pass with the release of the trigger or an obstruction downstream. Pressure is held in the line during by-pass with full pressure when the gun is opened or the obstruction cleared and minimal pressure fluctuation with the alternating use of multiple guns. 5-10% by-pass is necessary for optimum performance (blue spring).

Accessory to be used with these Pumps:
