

The Pumps with Nine Lives

**Model: [7720](#)
Pressure Regulator**

Specs

Max Flow:	10 gpm
Min Pressure:	2000 psi
Max Pressure:	10000 psi
Inlet Port Size:	0.25
Discharge Port Size:	0.25
Type of Accessory:	Regulator
Material:	Stainless Steel (SS)

Description:

This high performance 10,000 PSI Pressure Regulator is designed for single pump installations. This valve features a flow-thru design that easily plumbs into the discharge line or directly onto the discharge head. This pressure regulator maintains set system pressure while directing unused flow through the by-pass port and instantly returns to full pressure when operation resumes. Only a low 5% by-pass is required for optimum performance.

Accessory to be used with these Pumps:
