Description:

Cat Pumps Direct-Drive Flexible Couplings feature special urethane flexible spider designed for extended life with high temperature and high RPM. Selecting a compact direct drive package allows you to reduce space requirements compared to belt or gearbox assemblies as well as eliminate the need for belt selection, sizing and adjustment. For a complete drive package, combine with Cat Pumps Bell Housing. Model 8375 Flexible Coupling is designed for frame motors up to 10 HP. For selection and further information, refer to the data sheet.

Accessory to be used with these Pumps:
