

Kanaflex

KANAFLEX HOSE SM

Tough enough...and light enough...to take it.

LIGHT ENOUGH TO MAKE THE LARGEST JOBS A BREEZE

SERIES 150CL is geared for grass clippings, leaves, mulch, debris and light abrasives. Ideally suited for dust-control, air-conditioning and ventilation ducting. 150CL our lightest and most flexible PVC hose.

**MADE IN
U.S.A.**

Kanaflex[®]

SERIES 150CL IS EXTREMELY FLEXIBLE AND LIGHTWEIGHT.

THE BEST HOSE TO DO THE JOB RIGHT.

Economical . . . initial cost is low, and Kanaflex is almost maintenance-free, to save you money in the long run.

Lightweight . . . easier to handle and less expensive to transport.

Clear side wall . . . for monitoring product flow.

7" ID AVAILABLE AS STANDARD STOCK ITEM

Weatherproof . . . Kanaflex is highly resistant to temperature changes and deterioration by sun, ozone or mildew.

Smooth bore . . . combined with smooth bending characteristics, makes for the fastest, most efficient transfer of fluids.

Extremely flexible . . . lends itself to working in tight spaces.
